CURRENT SITUATION

(Recent updates are posted at the top of Current Situation)

The City of Riverside Fire Department responded to a report of a twin engine aircraft possibly having problems with its landing gear while attempting to land at the Riverside Airport. Firefighters responded to the main runway of the airport and staged with airport personnel while the twin engine Beechcraft Duchess airplane orbited to burn off fuel. The plane was able to land safely with no injuries, and no damage to the aircraft. Cause of the mechanical problem is under investigation. The aircraft had a pilot and 1 passenger on board.
